

METHODS AND ASSISTANCE PROGRAM 2011 REPORT

Winkler County Appraisal District

Susan Combs Texas Comptroller of Public Accounts

January 23, 2012

Chief Appraiser
County Appraisal District Board of Directors
Superintendents
School District Boards of Trustees

Ladies and Gentlemen:

In 2009, the Texas Legislature enacted a new law that amended Tax Code Section 5.102. It requires the Comptroller of Public Accounts to review appraisal districts every two years. Called the Methods and Assistance Program (MAP), the reviews study the governance, taxpayer assistance, operating procedures and the appraisal standards, procedures and methodology of each appraisal district. The Property Tax Assistance Division (PTAD) performed the reviews for 125 appraisal districts in 2011.

Your appraisal district's MAP report is enclosed and includes: an assessment of how well your appraisal district performs; recommendations that will allow your appraisal district to comply with laws, rules, regulations, appraisal practices or operating best practices; results of surveys concerning the board of directors, the appraisal review board and information technology; taxpayer comment card feedback, if received; and board chairman comments. In certain cases, taxpayer and chief appraiser comments are also provided.

The recommendations must be implemented within one year from the release of this report per Tax Code Section 5.102. The MAP review team will return to the appraisal district in December 2012 to document the implementation. Recommendations that are not complete, or not substantially complete, by that time will result in notification to the Texas Department of Licensing and Regulation (TDLR). The appraisal district will have another year to complete the outstanding recommendations. Recommendations still incomplete after one year could result in sanctions against the chief appraiser and/or appraisal district staff who are licensed through TDLR. Your appraisal district should make every effort to complete all recommendations in a timely manner.

The Comptroller's office is committed to supporting the MAP review process and helping appraisal districts come into compliance with existing laws, rules and regulations. PTAD will work with appraisal districts to improve their operations and to comply with each recommendation. We want to thank the chief appraiser, board chairman and the staff of the appraisal district for their help in making this new program a success.

Winkler County Appraisal District

This review is designed to determine whether appraisal districts are meeting minimum requirements for performing statutory and appraisal duties. This review is conducted in accordance with Tax Code Section 5.102(a), effective Jan. 1, 2010, and related Comptroller rule 9.301. The Comptroller is required by statute to review appraisal districts for governance; taxpayer assistance; operating procedures; and appraisal standards and methodology.

Details concerning the actual activities performed by the CAD can be found in the remainder of the report. Because of the diversity of land within Texas, some parts of the MAP may not be applicable to a county. If questions or a section of questions do not apply, such as when a county has no timber, the question or questions will be marked as “Not Applicable” or “NA” and the final score will not be negatively impacted by these questions.

Review Questions and Answers

This review is conducted in accordance with Tax Code Section 5.102(a), effective Jan. 1, 2010, and related Comptroller rule 9.301. The Comptroller is required to review appraisal districts:

- governance;
- taxpayer assistance;
- operating procedures; and
- appraisal standards, procedures and methodology.

As part of the MAP review process, the CAD is required to submit, in advance of the review, electronic copies of procedures, policies, notices, manuals and related materials necessary for the completion of this review. Electronic copies may be submitted on DVDs, CDs or via the Property Tax Assistance Division's FTP Web site. Comptroller reviewers also collect related information at the time of the on-site review, compare appraisal district records to existing property and locate property using district maps. Each CAD is reviewed every other year. This report details the results of the review for the appraisal district named above.

Note: All bolded questions represent practices that exceed minimum requirements and will be scored as extra points in the total point scoring system.

GOVERNANCE

Appraisal district governance is evaluated in five subsections concerning CAD board of director's responsibilities: appointment of the chief appraiser; appointment of the appraisal review board; approval of the appraisal district budget; appointment of the taxpayer liaison and the agricultural appraisal advisory board; and oversight of contracts and appraisal district operations. The CAD board of directors is responsible for setting policy and hiring the chief appraiser. The chief appraiser establishes a preliminary budget and the CAD board approves the budget and maintains a review of the budget and its expenditure over the course of each fiscal year. The CAD board of directors appoints the appraisal review board to hear property disputes. The CAD board of directors appoints the taxpayer liaison and provides advice and consent to the appointment of the agricultural appraisal advisory board. The CAD board of directors also maintains oversight of contracts and operations.

This section contains nine questions that are not specifically required by law. They are considered "best practices" for appraisal districts, and are, in fact, used in many districts.

The specific questions are the first five questions under "Appointment of Chief Appraiser" and the first four questions under "Appointment of the Appraisal Review Board." If this report reflects "no" answers to these questions, it includes recommendations for implementing these "best practices."

In this final Methods and Assistance Program (MAP) report, the answers and recommendations concerning these nine questions have not been included in the calculation of the score. Your MAP score may be higher than the preliminary draft score, even though the report still contains the same recommendations. Appraisal districts are encouraged to comply with the recommendations associated with these nine questions.
